Workshop Energy from the Mediterranean Sea – innovative financial instruments and technological advancements

**Union for the Mediterranean
Stakeholder conference on Blue economy**

Napoli 29 November 2017

Focus

How to strenghten contribution of EU to blue energies in/with the regions ?

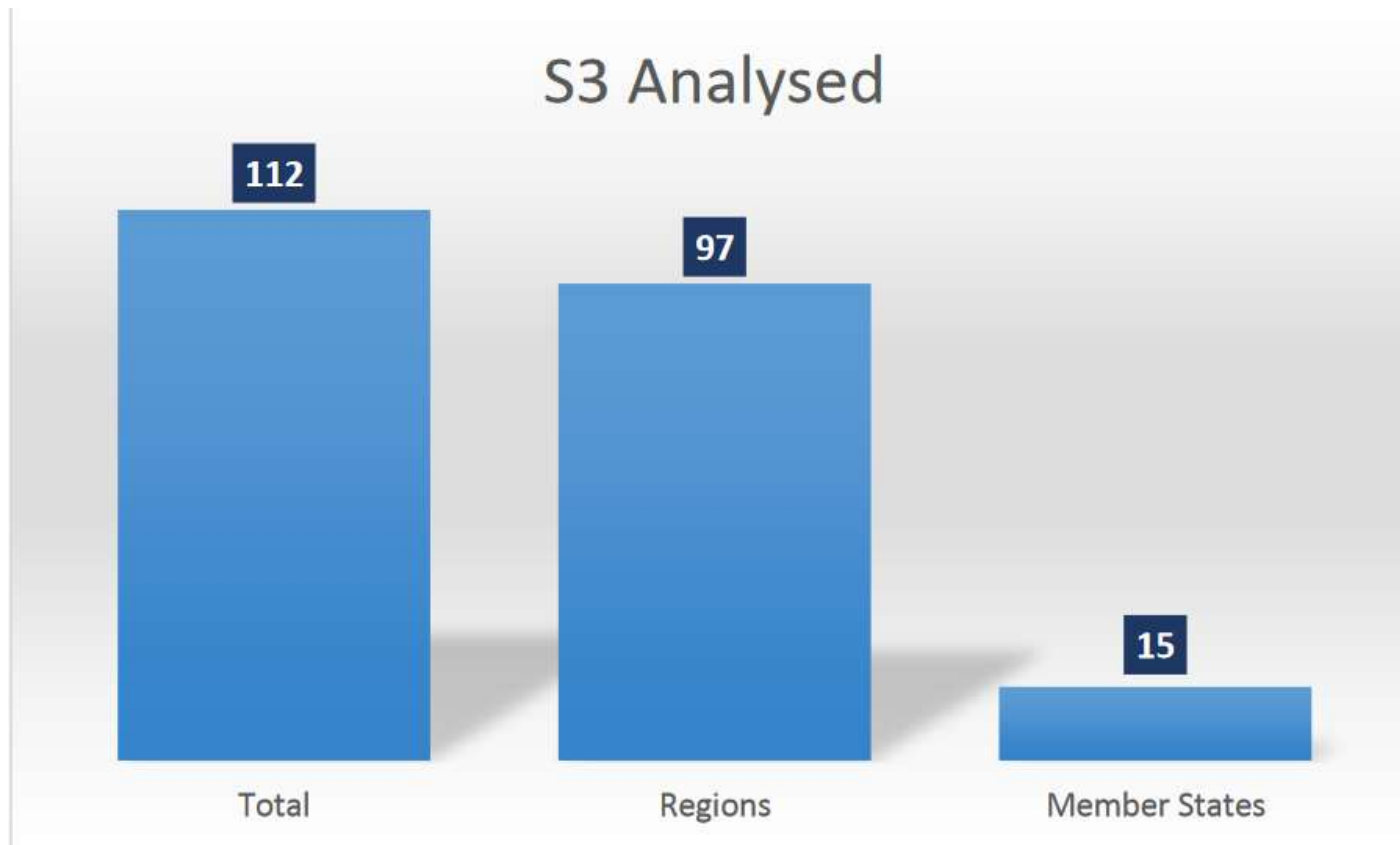

- Cohesion policy, smart-specialization and blue growth – regions are investing
- EFSI, financial engineering and blue growth – regions can be partners

Cohesion policy, S3 and Blue Growth

CPMR

CPMR initial study on S3 and Blue Growth

S3 and Blue Growth

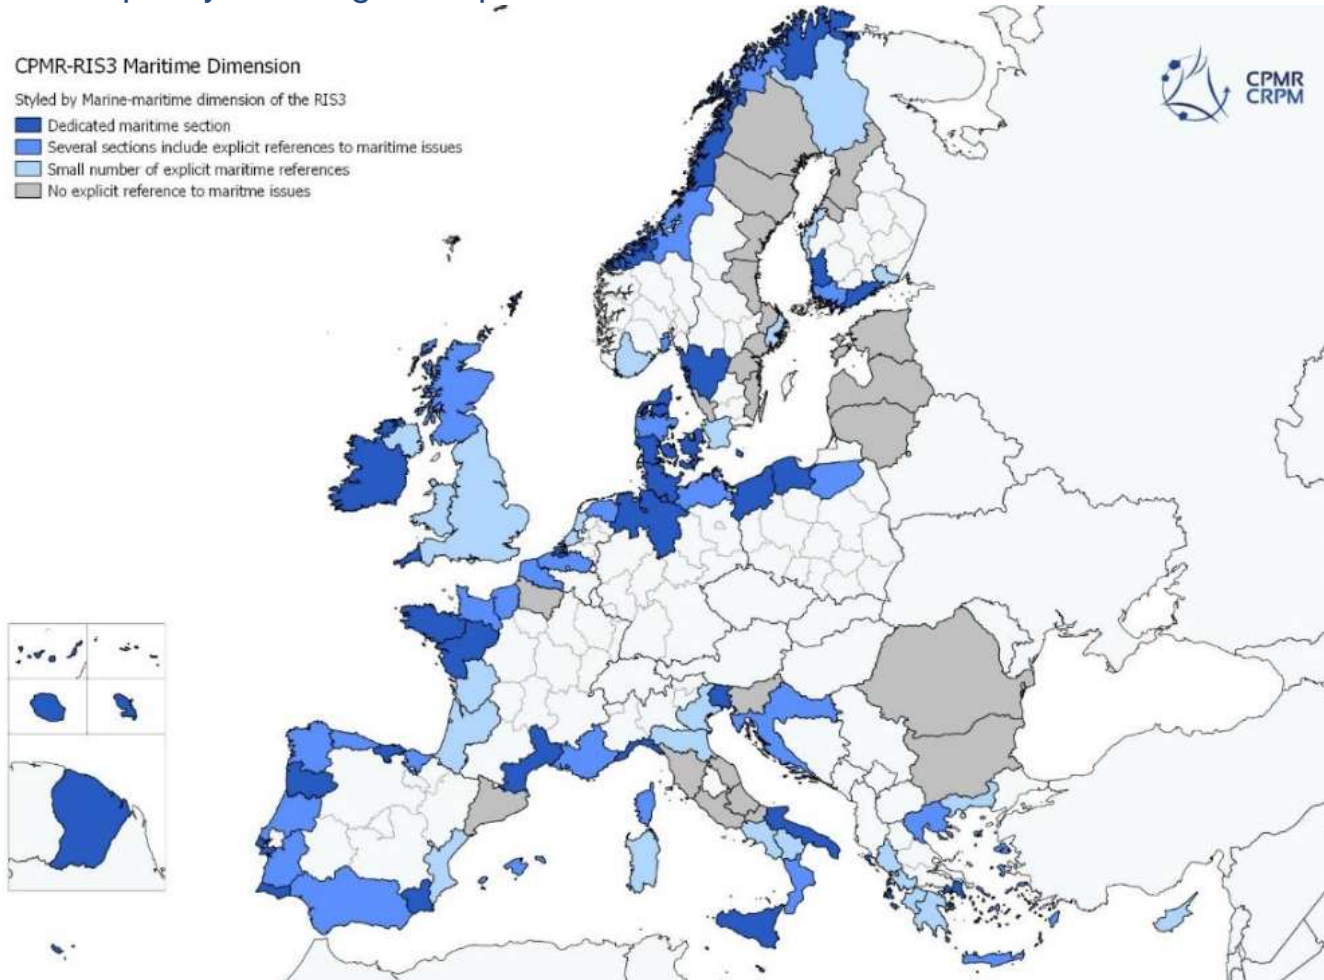

NB :Map only focusing at S3 priorities

CPMR-RIS3 Maritime Dimension

Styled by Marine-maritime dimension of the RIS3

- Dedicated maritime section
- Several sections include explicit references to maritime issues
- Small number of explicit maritime references
- No explicit reference to maritime issues

**ERDF could provide
5,5 billions Euros
for blue growth
between 2014-2021

Transversal

EFSI, financial engineering and blue growth

CPMR
CRPM

Need for :

- More support from the EFSI to blue growth investments
- More synergies between EFSI and regional/macro-regional development strategies, via support to smaller projects, and to projects defined in line with these strategies

Idea of “blue investment platform or blue funds of funds”. 2 options :

- Creation of InnoFin type instrument for blue growth
- EFSI Territorial platforms focusing on blue growth

CPMR developing concrete suggestions about what “funds of funds” can be at regional level

Need to include these issues within Mediterranean initiatives (West-Med, Eusair, BlueMed, UfM)

CPMR
CRPM

Thank you
