# Challenges

## Blue Growth

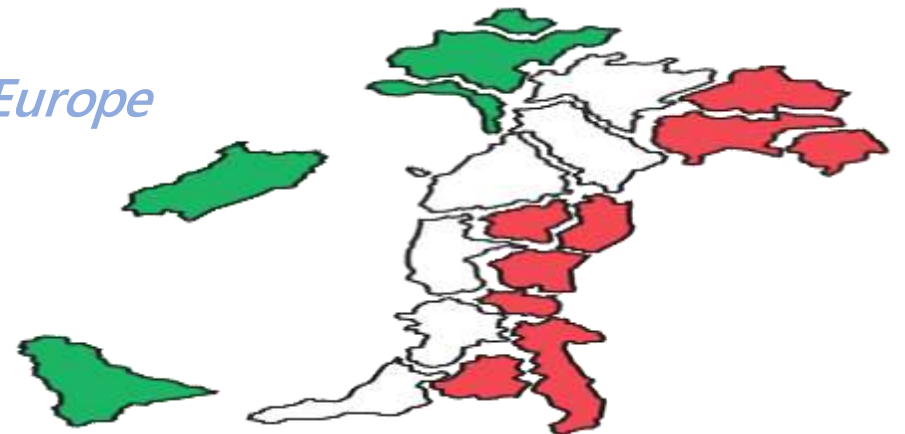

*to drive sea actors to sustainable results in capturing the opportunity for an increasing economic exploitation of sea resources*

## Technology Cluster

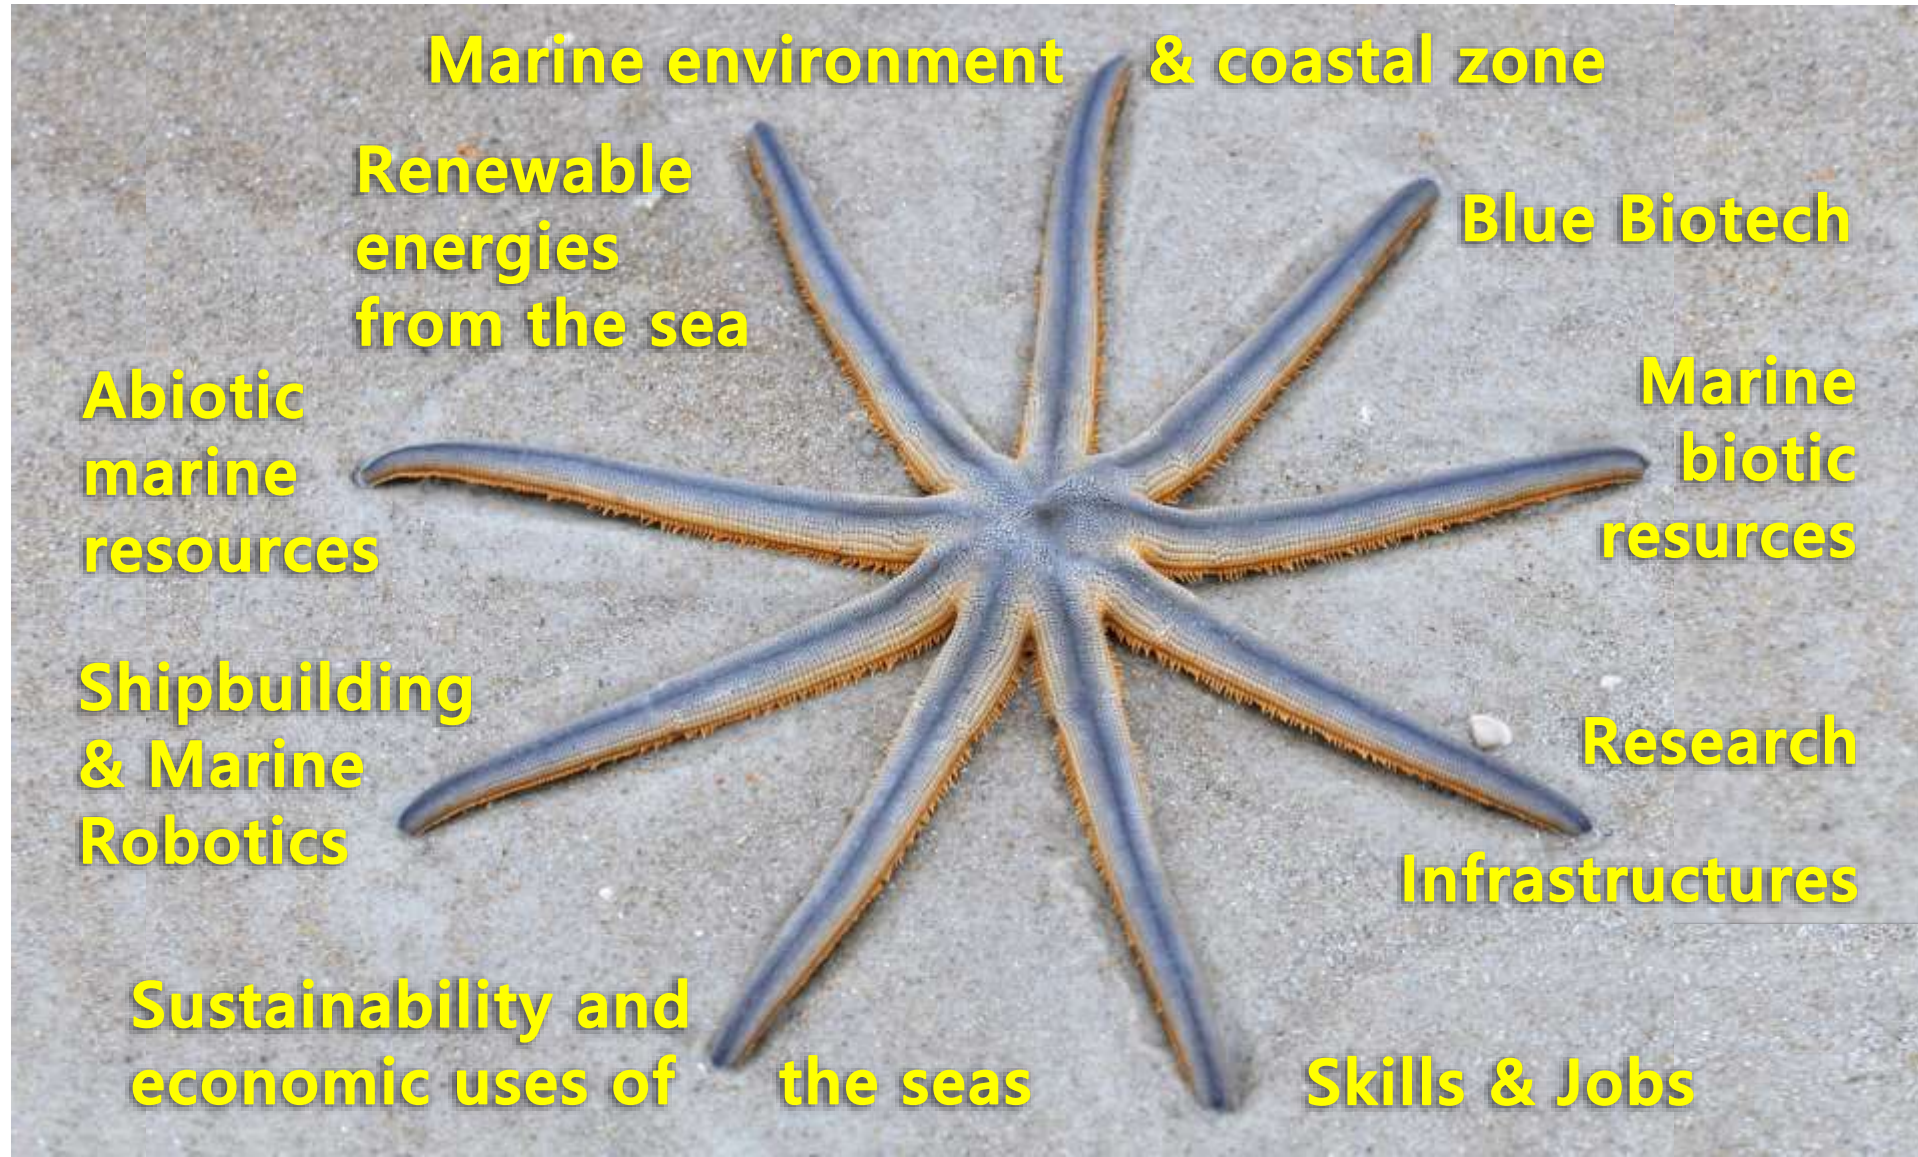

*a virtual place in which all participants share goals and paths for a common growth*

## in Italy

*Perhaps the best example of a fragmented society in Europe*

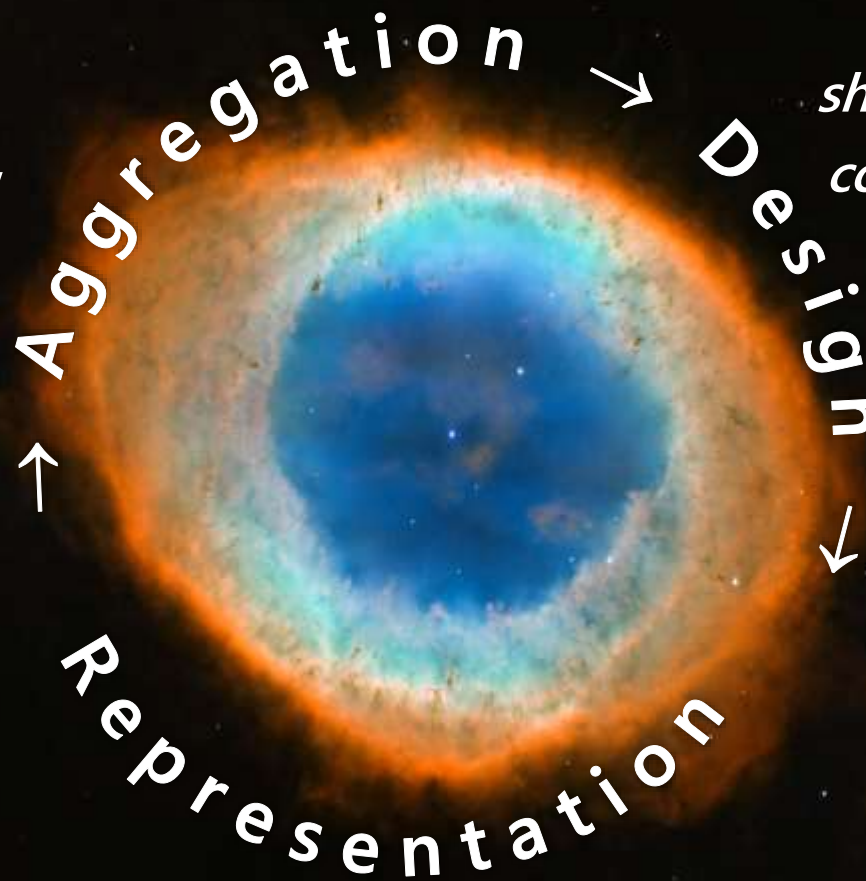

## *Thematics*

## The roles

*Aggregation  
between research  
and industry, and  
between sectors  
and territories*

*Design of:  
shared R&I strategies,  
common uses of R&D  
infrastructures,  
'capacity building'  
paths*

*Research and industry advisor  
and technical ambassador*

*towards the 'policy makers'  
of Italian blue economy*

*BiG was born on Oct 2<sup>nd</sup>, 2017*

*please wish BiG every success*
