NEXT GENERATION EU: FOCUS ON FISHERIES
ACTIVITIES

Fisheries Inspection &
control

Session 4

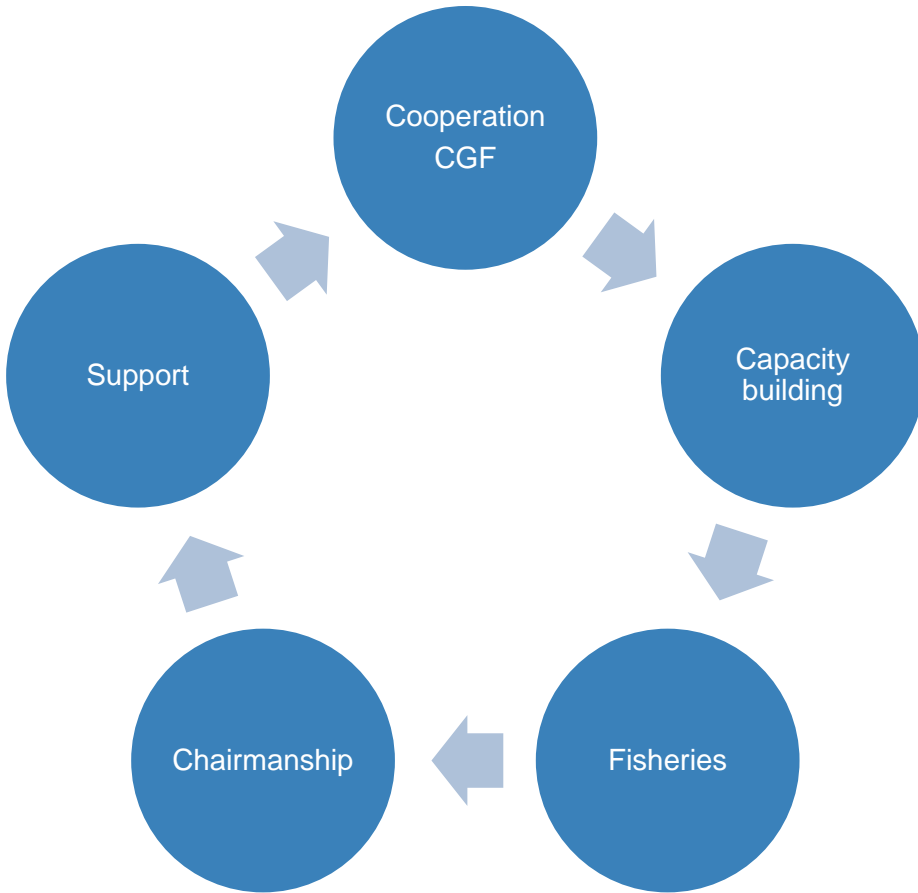

COAST GUARD FUNCTIONS AND CONTROL

Transversal

ROUND TABLE
FOCUS ON GLOBAL PERSPECTIVES ON COAST GUARD COOPERATION
(EMSA, EFCA, ITCG and USCG)

■ CONCLUSION

- the **continuation** of the **MCGFF Secretariat** – in line with the provisions stated in the Terms of Reference – as important support for the MCGFF Chairmanship;
- the **enhancement** of the mutual institutional knowledge and the cooperation among the MCGFF Members, in particular after the Covid-19 pandemic;
- the **common commitment** to improve regional cooperation in the Mediterranean Sea basin on issues of common interest related to Coast Guard Functions;
- the **common commitment** to support European and regional projects (such as SAFEMED V coordinated by EMSA) with the aim to raise safety, security and protection of the marine environment standards across the region;

COMMON COMMITMENT

- to improve regional cooperation in the Mediterranean Sea basin on Coast Guard Functions;
- to support European and regional projects (such as SAFEMED V coordinated by EMSA) with the aim to raise safety, security and protection of the marine environment standards across the region;
- to reinforce cooperation between the countries in the fisheries control and also to continue providing assistance in capacity building projects;
- MCGFF Members are invited to present, by the 30th November 2022, possible candidacy as MCGFF Chairmanship for the upcoming years;

ITCG will guarantee

- all efforts to attend the meetings of the MCGFF Secretariat with the possible support of the EU Agencies;
- any effort to support MCGFF Members to present their candidacy as MCGFF Chairmanship;
- the handover to the MCGFF Member who will present his candidacy, in coordination with the EU
- Commission (DG Mare) and informing promptly all the other MCGFF Members;
- the handover to the EU Commission (DG Mare), in case no Countries will present their candidacy for the upcoming bi-annual Chairmanship.
