# Eugenides Foundation

The charitable Eugenides Foundation, serving the vision of its founder, the national benefactor Evgenios Eugenides, continues for more than 65 years to contribute to the education of young Greek citizens in science and technical field.

The Conference Center of the Foundation has got modern facilities for the organization of conferences and events, with a total of five rooms that can accommodate from 20 to 520 people as well and comfortable exhibition foyers.

It is one of the largest and best equipped Planetariums in the World, as well as the new Center for Science and Technology promises your delegates a unique journey into science and The space.
