Blue Mediterranean Partnership (BMP)

14th UfM Working Group on Blue Economy

11 October 2023, Barcelona

Blue Mediterranean Partnership (BMP)

A new multi-donor and multi-partner instrument to support sustainable Blue Economy in the Mediterranean region.

Theory of Change

Impact Transition towards Sustainable Blue Economy compatible pathways in the Mediterranean advanced Outcome 1. Outcome 2. Outcome 3. Policy and enabling environment to Capacity to identify, design, and **Investments** in measures that enable improve Sustainable Blue Economy implement Sustainable Blue Economy Sustainable Blue Economy impact measure and investments enhanced. measures strengthened. increased. Activities Component I: Component II: Technical Assistance Catalyst **Donor Support** Co-Financing from Partner Organizations Indirect Co-Financing

Value Proposition

Builds on extensive experience and lessons learned from other initiatives.

Focuses on demonstrable projects that can be **replicated** to other regions.

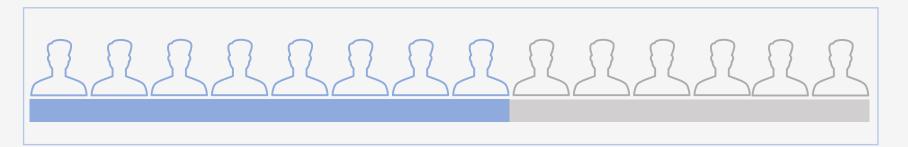

Forum for continuous strategic **dialogue** between Partners, Beneficiaries and Contributors

Maximum
leverage through
multi-Partner
involvement

Country driven approach with maximum involvement from Beneficiary countries

Targets systemic areas, delivering environmental benefits as well as climate change mitigation & adaptation impact.

Allows donors and beneficiaries to obtain early and ongoing visibility on financing opportunities

Contributes to wider SDG impact, including gender inclusion, resilience and poverty alleviation.

Systemic approach that combines policy dialogue and technical assistance with investments.

Facilitates a multi-country approach, enabling transboundary synergies, replication and scale.
