## OUR VISION

The global BlueBlueTech facilitator, building bridges between stakeholders in the Med

## OUR MISSION

To build an Ecosystem that Sustainably Restores, Enhances and Manages the Marine Natural Capital

### Increasing

- Biodiversity
- Biomass
- Carbon Seq. Cap,
- Ecosystems' Resilience

Environment  
Conservation

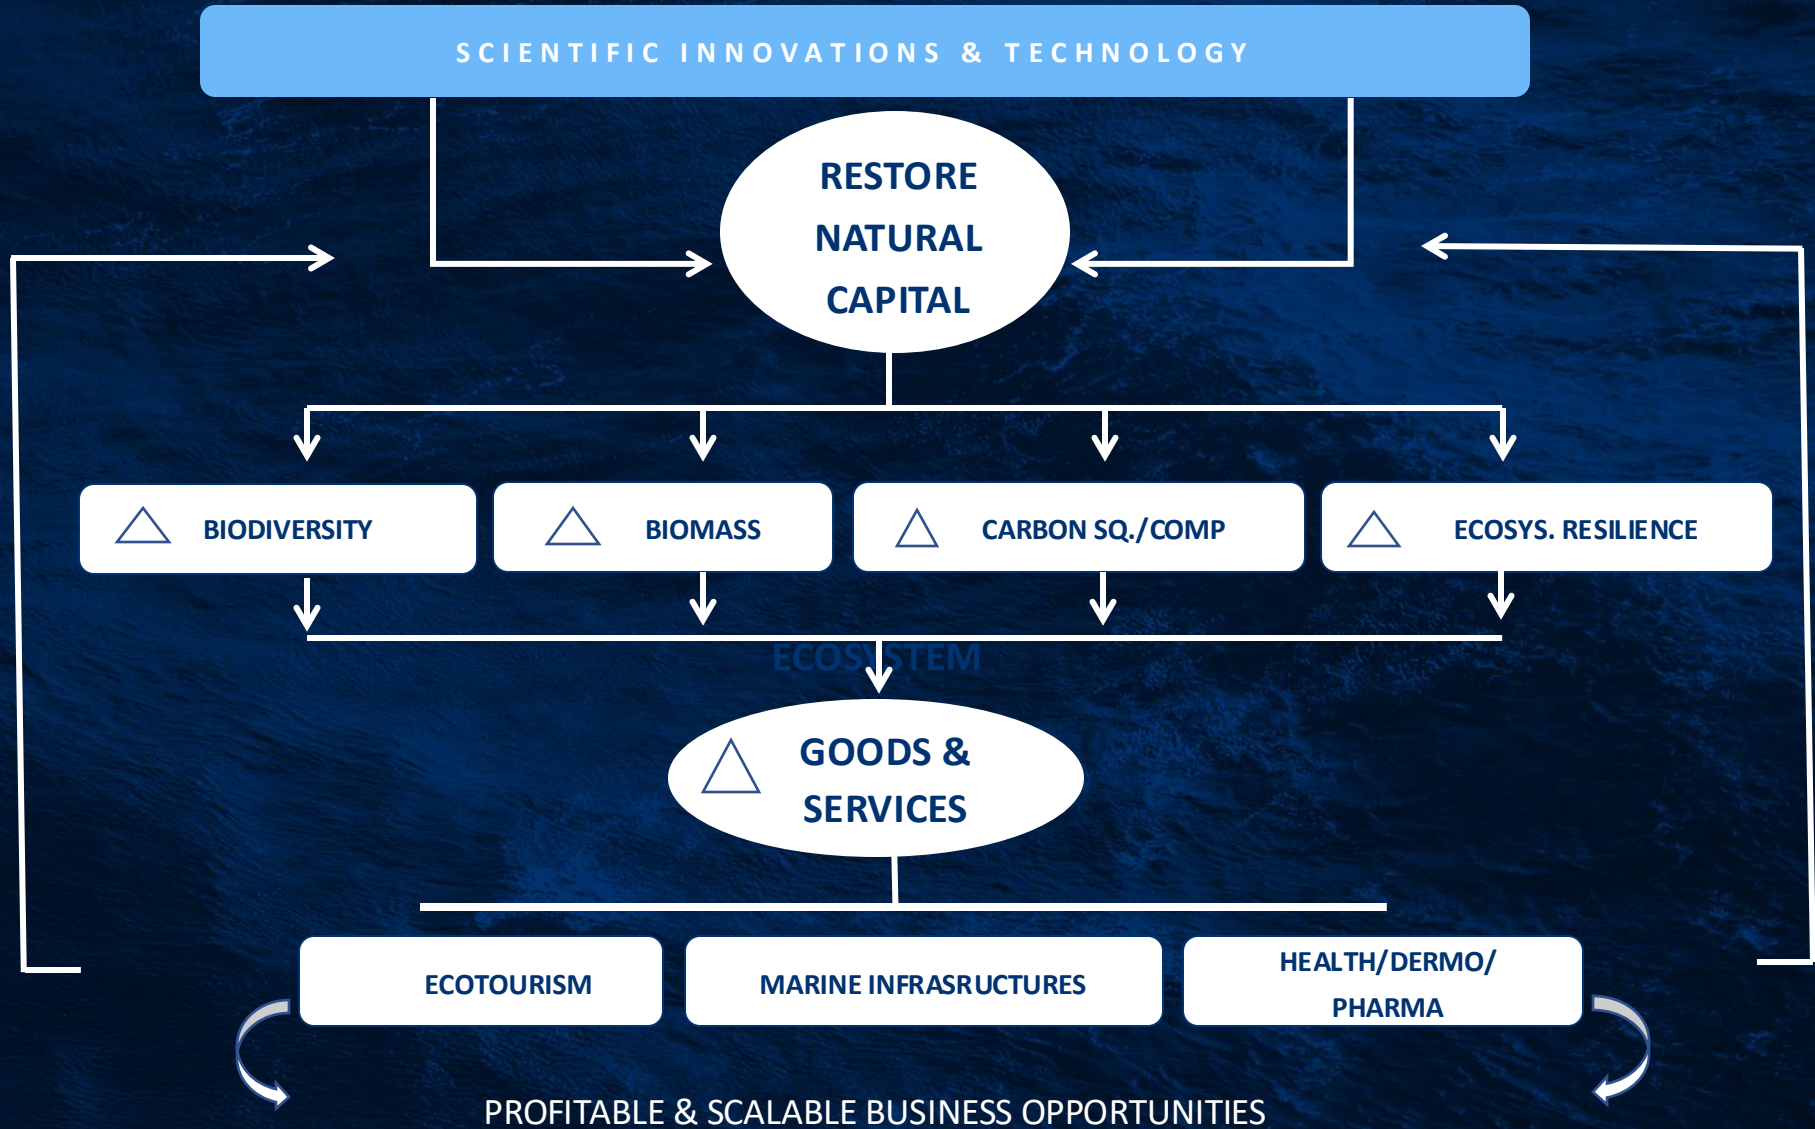

Climate  
Change

## OUR APPROACH

Connect science with business and investors, turning BlueTech projects into reality

# NATURE-BASED VALUE GENERATION MODEL

SEASTAINABLE  
VENTURES

# SEASTAINABLE VENTURES - PARTNERS AND AMBASSADORS

Seastainable Ventures has set up a solid support network, including scientists, universities, NGOs, and research centers from around the globe. This group of experts ensure scientific consistency, and grant access to cutting edge technology and know-how, required to build the projects. As Ambassadors, they enhance the Ecosystem and set up high quality standards.

# SEASTAINABLE VENTURES

## Geographies and Impact

### Geographic Scope

---

- The projects promoted should take place either in marine (offshore/inshore, underwater) and coastal environments
- Main focus in Europe, and **Mediterranean Basin**, but keeping a global scope in the long run

### Role

---

- **Launch projects (startups) or mobilize ecosystem**
- The projects should target several SDG goals, **particularly Life Below Water (14) and Climate Action (13)**. Additionally No Poverty (1), Sustainable Cities and Communities (11), Responsible Production and Consumption (12) are also considered

# BARRIERS & TRIGGERS TO FOCUS ON

## STRUCTURAL CHALLENGES:

- **Public Space – GOVERNANCE**
- **The Tragedy of the Commons**
- **Corporate culture – maritime industry**
- **Investment**

## TRIGGERS

- **New Ecosystems: HUBS**
- **Entrepreneurial culture**
- **Science and Research are booming**

Ocean  
Ecostructures

Bluetech startup providing solutions to renaturalize marine infrastructures, restoring life at scale, offsetting the impact of human activities in the ocean

We turn Grey spaces to Blue Oases

## GMM Call 4 Innovation

- Objectives
  - Catalyze innovation for a greener med
  - Generate connections N-S Med basin
- Status:
  - Ending call
  - About 30 startups so far

A close-up photograph of a person's hand holding a large quantity of seashells. The hand is positioned on the left side of the frame, and the shells are cascading downwards. The person is wearing a blue denim jacket and a dark red beaded bracelet. The background shows a sandy beach, the ocean with gentle waves, and a clear blue sky. The overall aesthetic is clean and natural.
